Cost Share Program Application: Food Security Solutions

We do not discriminate on the basis of race, color, religion, national origin, gender, age, disability, marital or veteran status, or any other legally protected status. No question on the application is used for the purpose of limiting or excluding any applicant from consideration prohibited by local, state, or federal law.

Objective:

The Dubois-Crowheart Conservation District (DCCD) offers cost share funding to District constituents. The board of supervisors is open to projects that meet the District's natural resource objectives as outlined in the Land Use and Natural Resource Management Plan. This application is solely for food security solutions (i.e.—hoop houses, greenhouses).

Funding:

The amount of cost share available for a project is a maximum of 50% and not to exceed \$2,500.00. For example, if the total cost of an approved project is \$1,200.00, the district **may** provide up to \$600.00. If the total cost of an approved project is \$7,000.00, the District **may** provide up to \$2,500.00.

DCCD will determine the cost share for each project on a case by case basis. DCCD reserves the right to adjust the final cost share payment based on the final project cost. Amount and/or percentage of cost share funding will be based on the scope, longevity, and broad-based benefit to multiple natural resources and District constituents

The project must be completed and original receipts provided by October 1. DCCD will only reimburse for materials that were purchased **new**, and only on projects that were approved **prior** to any purchases and the start of work. The Board may approve an extension of up to one year for extenuating circumstances.

Selection:

Applications may be submitted between January 1 and April 30.

Applicants are required to attend the Board meeting (first Wednesday of the month at 12:00 noon) at which time the application will be presented and discussed. Arrangements must be made with the District Manager if the applicant is unable to attend the Board meeting.

Two estimates/quotes for materials are required. DCCD will only cost share on the lowest estimate.

Applicant Responsibilities:

1. Provide photo(s) of project area with application and after project is complete (if deemed necessary)
2. Attend DCCD monthly board meeting to present project (if requested)
3. Provide proof of Landowner Concurrence if on leased property
4. Provide proof of access to water source (if applicable to project)
5. Provide a SSN or EIN for purposes of 1099 reporting
6. Provide copies of paid receipts prior to receiving reimbursement
7. Comply with town building regulations (if applicable to project)

The Dubois-Crowheart Conservation District, a member of the Wyoming Association of Conservation Districts, provides leadership for the conservation of Wyoming’s soil and water to promotes the control of soil erosion, to promote and protect the quality of Wyoming’s waters, to reduce the siltation of stream channels and reservoirs, to promote wise use of Wyoming’s water and all other natural resources, to preserve and enhance wildlife habitat, to protect the tax base and promote the health, safety, and general welfare of the citizens of this state through a responsible conservation ethic.
